

Gold Hill Townsite Planning Initiative Meeting

**Monday, December 8th, 6:00 p.m. at the Community Center
Before the Town Meeting scheduled for 7:30**

Everyone who is interested in looking at how we, as a community, want to approach this process is encouraged to attend.

1. Establish a working committee – and possibly some sub-committees
2. Work toward an overall roadmap and calendar for our planning process – something along the lines of how we developed the Community Wildfire Protection Plan.

Stealing from Allenspark's planning process, I believe we need to begin with planning meetings to educate ourselves and everyone interested about where we are now and what we have to work with: Comp Plan, Site Plan Review, Land Use Code, etc., as well as our own Historical Zoning Guidelines and Gold Hill Long Range Planning work. The County Planning people, including Pete Fogg, Garry Sanfaçon and Doug Parker will be able to help us with maps, research, data, and some possible funding.

This is a great opportunity to have a greater, more organized say in our future. Please come in you can. If you are interested in being on the committee and cannot attend, let me know at 303-442-3847 or email me at gretchend@mac.com

Thanks, Gretchen Diefenderfer
