

WELCOME!!

Longmont-to-Boulder Trail and 95th Street Bridge Replacement Project Open House

Please take a few moments to look around at the various displays. Staffs from Boulder County, the City of Longmont, and City of Boulder are available to answer any questions about the project.

We are looking at three projects connected with the Longmont to Boulder Trail that are funded from the Transportation Improvement Tax approved by voters in 2001, funding from the City of Longmont, and from the Federal Transportation Enhancement program administered by the Colorado Department of Transportation.

Please use the comment sheets to provide us feedback on these improvements. More information on the project is available on the Boulder County website: <http://www.bouldercounty.org/transportation/> or by calling Boulder County Transportation at (303) 441-3900.
